

INTERNATIONAL BOUNDARY & WATER COMMISSION  
**MINIMUM QUALIFICATIONS FOR AWARD**  
**Performance of Work by Design-Builder**

Design-Builder Name			
Solicitation Name		Solicitation Number	

*Complete form to determine percent of work performed by Design-Builder per FAR 52.236-1.*

Describe the work to be self-performed:

---

---

---

---

A.	Total Bid Price on Above Solicitation	
B.	Total Subcontracted Design Costs included in Bid	
C.	Total Subcontracted Survey Costs included in Bid	
D.	Total Subcontracted Geotechnical Borings/Analysis included in Bid	
E.	Total Subcontracted Utility Surveys included in Bid	
F.	Total Subcontracted Site Inspection included in Bid	
G.	Total Subcontracted Construction Work included in Bid	
H.	Total Other Subcontracted Work included in Bid	
I.	Total G&A, Home Office Overhead, Profit, Bond, Insurance, etc.	
J.	Total Work to be Performed (J = A - B - C - D - E - F - G - H - I)	
K.	Percent Self-Performed Work (J / A x 100)	%

I certify that the above information is current, accurate and complete to the best of my knowledge and that I have the authority to provide the information requested on this form.

INTERNATIONAL BOUNDARY & WATER COMMISSION  
**MINIMUM QUALIFICATIONS FOR AWARD**  
**Performance of Work by Design-Builder**  
**INSTRUCTIONS**

---

**Design-Builder Name:** Enter the name of the company bidding on the solicitation, i.e. your name.

**Solicitation Name:** Enter the name of the project that is being solicited.

**Solicitation Number:** Enter the USIBWC solicitation number.

The following are definitions concerning self-performance of work by the Design-Builder in accordance with FAR Clause 52.236-1 *Performance of Work by the Contractor* (APR 1984).

**"Self-Performance of Work"** generally includes mobilization and utilization of owned or rented plant and equipment to be operated by the Design-Builder's own (not subcontract) employees. Include only those materials which will be both purchased and installed by the Design-Builder's own (not subcontract) forces, the labor associated with those aforementioned materials or equipment, only those supplies to directly support work performed by the Design-Builder's own employees, and the Design-Builder's own job overhead costs.

**"Design Costs"** includes all work defined in FAR 36.306-4(a)(1) and (2). Include all work that produces an engineer signed and stamped document.

**"Survey Costs"** includes all work defined in FAR 36.306-4(a)(4) that is performed as part of the project.

**"Geotechnical Borings/Analysis"** includes all work associated with collecting geotechnical bores or samples, performing analysis on collected materials, and performing additional or new geotechnical analysis on the site of work. This includes establishment/identification of borrow areas and any quality control testing.

**"Utility Surveys"** includes all work performed to identify type or location of utilities whether performed prior to design or prior to construction.

**"Site Inspection"** includes all work associated with photographing the site, videotaping the site, trips to the site, and other similar work.

**"On the Site"** includes the office site(s), construction site(s), jobsite, and worksite as well as offsite fabrication plant, borrow sites, or other facilities necessary to manufacture assemblies or provide materials to be incorporated into the project. See Scope of Work Section 01.42.00 for definition of jobsite and worksite.

**"Total Self-Performed Work"** is comprised of all direct (variable, fixed, one-time and semi-variable) costs to the Design-Builder, including jobsite overhead costs, to complete the project. It generally includes all self-performed work, as defined above, and cost of all supplies and materials installed by Design-Builder.

*The following are NOT self-performed work for purposes of the clause: markups for profit, general and administrative (G&A) overhead, bonds, insurance, or other indirect costs on self-performed or subcontracted work, "Owner-operated equipment," rental of plant or equipment for operation by subcontractors, and purchase of materials for installation by subcontractors.*
